

- **Replace or Upgrade your existing Prime Focus Feed System**
- **Adaptable to new antennas or legacy antennas that are no longer manufactured**
- **Motorized Feed System option to allow for remote polarization control**

DESCRIPTION

The Viking Satcom Feed System Retrofit Kit allows you to upgrade your existing Prime Focus antenna system to receive new C or Ku band Feeds. If you need to upgrade your new antenna or a discontinued antenna we will be able to assist.

FEATURES

- The new Feed Kit will allow you to Replace or Upgrade your existing Prime Focus Antenna Feed System
- The Kit works with antennas that are no longer being manufactured such as Patriot Antenna and Comtech antennas. Also works with DH Satellite, Prodelin and many other Prime Focus Antennas.
- Allows you to upgrade your existing C band system to C/Ku band or Ku only
- Can be used with Viking Satcom, Seavey Engineering or Chaparral Feeds
- Motorized and Non Motorized Options Available
- Option to view more than one satellite at a time
- System Includes new Feed Struts, Feed Plate and Feedhorn
