

Satellite In-Line Power Inserter

400 MHz to 2150 MHz

VS-DPI

Power Adapter

Features

- Power inserters supply constant DC voltage to C/Ku or DSS satellite LNBs, microwave down converters, and in-line amplifiers
- Input voltage of 100 to 240 V, 50 Hz, 60 Hz
- Operating frequency from 400 MHz to 2150 MHz
- Two Independent paths
- UL-approved external universal AC power adapter for domestic and international use
- Plug-in external UL power wall adapter included

Specifications	
Bandwidth	400 MHz to 2150 MHz
Insertion Loss	2 dB
Isolation	65 dB
Input Connector	75 Ω , F-female
Output Connector	75 Ω , F-male
Input Voltage	100 to 240 V, 50 Hz, 60 Hz
Output Voltage Port 1	18 VDC
Output Voltage Port 2	14VDC / 18 VDC sw.
LNB Current Each Path	1000mA

VS-DPI_REV001
